

Mini cake & two single slices with mini strawberries

Ingredients Needed -

Brown, Pink & Red Felt

Thin cardboard

Stuffing

Simple Sewing Kit

Finished cake measures 5cm x 5cm. Strawberries measure 1cm.

Step 1 -

Sew the longest red filling piece along the centre of the longest brown cake piece to create the jam filling. Repeat this process sewing the shorter red filling pieces along the centre of the shorter brown cake pieces.

Step 2-

Sew the longest edge of the long brown cake piece around the edge of the pink cake top piece. When you have sewn completely around the edge, the ends will over lap, sew the gap closed. Repeat the process with the two single pieces of cake.

Step 3-

Insert the cardboard pieces inside the mini cake and two single cake pieces to give them a firmer shape. Sew the bottom brown cake piece in place leaving a small gap for adding the stuffing. Stuff the cake and sew up the gap. Repeat the process with the two single pieces of cake.

Strawberry

Using white thread, make small French knots all over the strawberry. Fold the strawberry in half and over stitch the straight edges together. Sew a running stitch around the curved edge of the strawberry but before pulling the thread tight fill with stuffing. Pull tight to create a strawberry shape and tie off thread to secure.

Pattern Pieces

Strawberry

Each semi circle is one strawberry so cut out as many pieces as desired from red felt
