

Make your own felt dessert – Slice of cake

Kit contains -

Pre-cut felt shapes

Stuffing

Ribbon

Thread - Beige & Pink

Needle

Step 1 - Stitch type - Overstitch. Thread Colour - Beige

Sew the longest edge of the green triangle piece to the longest edge of largest brown piece. Repeat with the second edges.

Step 2 - Stitch type - Overstitch. Thread Colour - Beige

Sew the curved edge of the green piece to longest edge of the smaller brown piece. Sew up the adjoining edges of the brown pieces to create a 3D triangle.

Step 3 - Stitch type - Overstitch. Thread Colour - Beige

Insert the cardboard pieces inside the cake to give it a firmer shape. Sew the bottom green triangle piece in place leaving a small gap for adding the stuffing. Once the cake is stuffed sew up the gap.

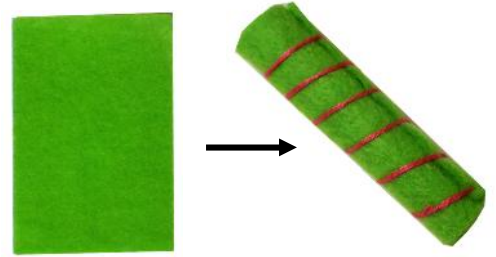

Step 4 - Stitch type - Running Stitch. Thread Colour - Pink

Sew the ribbon around the centre of the cake to look like a jam filling.

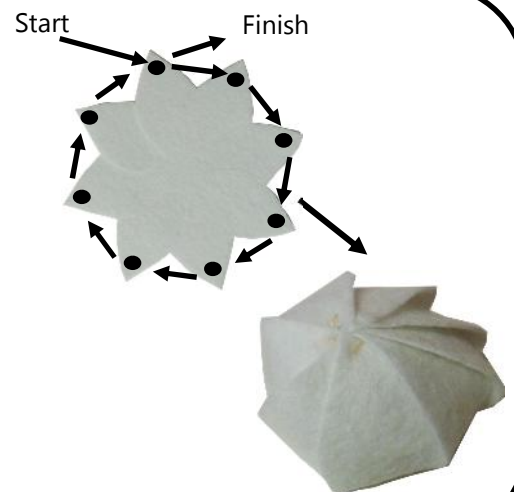

Step 5 - Fruity Swirl

Roll up the green rectangle piece to create a tube. Using pink thread make a small stitch at one end to hold the tube together. Holding the tube tightly wrap the thread around the tube until you get the bottom of the tube and make another small stitch to hold the other end in place.

Step 5 - Cream Drop

Using beige thread, push your needle through the top of each spike and then back through the first spike. Gently pull the thread to create the cream drop shape. Insert a small bit of stuffing and tie off the thread to secure in place.

Step 5 - Strawberry

Using beige thread, make small French knots all over the strawberry. Fold the strawberry in half and using pink thread overstitch the straight edges together. Sew a running stitch around the curved edge of the strawberry but before pulling the thread tight fill with stuffing. Pull tight to create a strawberry shape and tie off thread to secure.

Step 6

Arrange Fruity Swirl, Cream Drop & Strawberry on top of the piece of cake and sew in place.
